

研究内容

强旋光：晶体 $\alpha - \text{HIO}_3$ 中的 内锥衍射

第 2 章
第 2.4 节

1978 - Laser studies of internal conical diffraction II: Intensity patterns in an optically active crystal, α -iodic acid - JOSA - Schell & Bloembergen

crystal length is 2.5 cm, $w_0 = 30 \mu\text{m}$, and magnification 72.

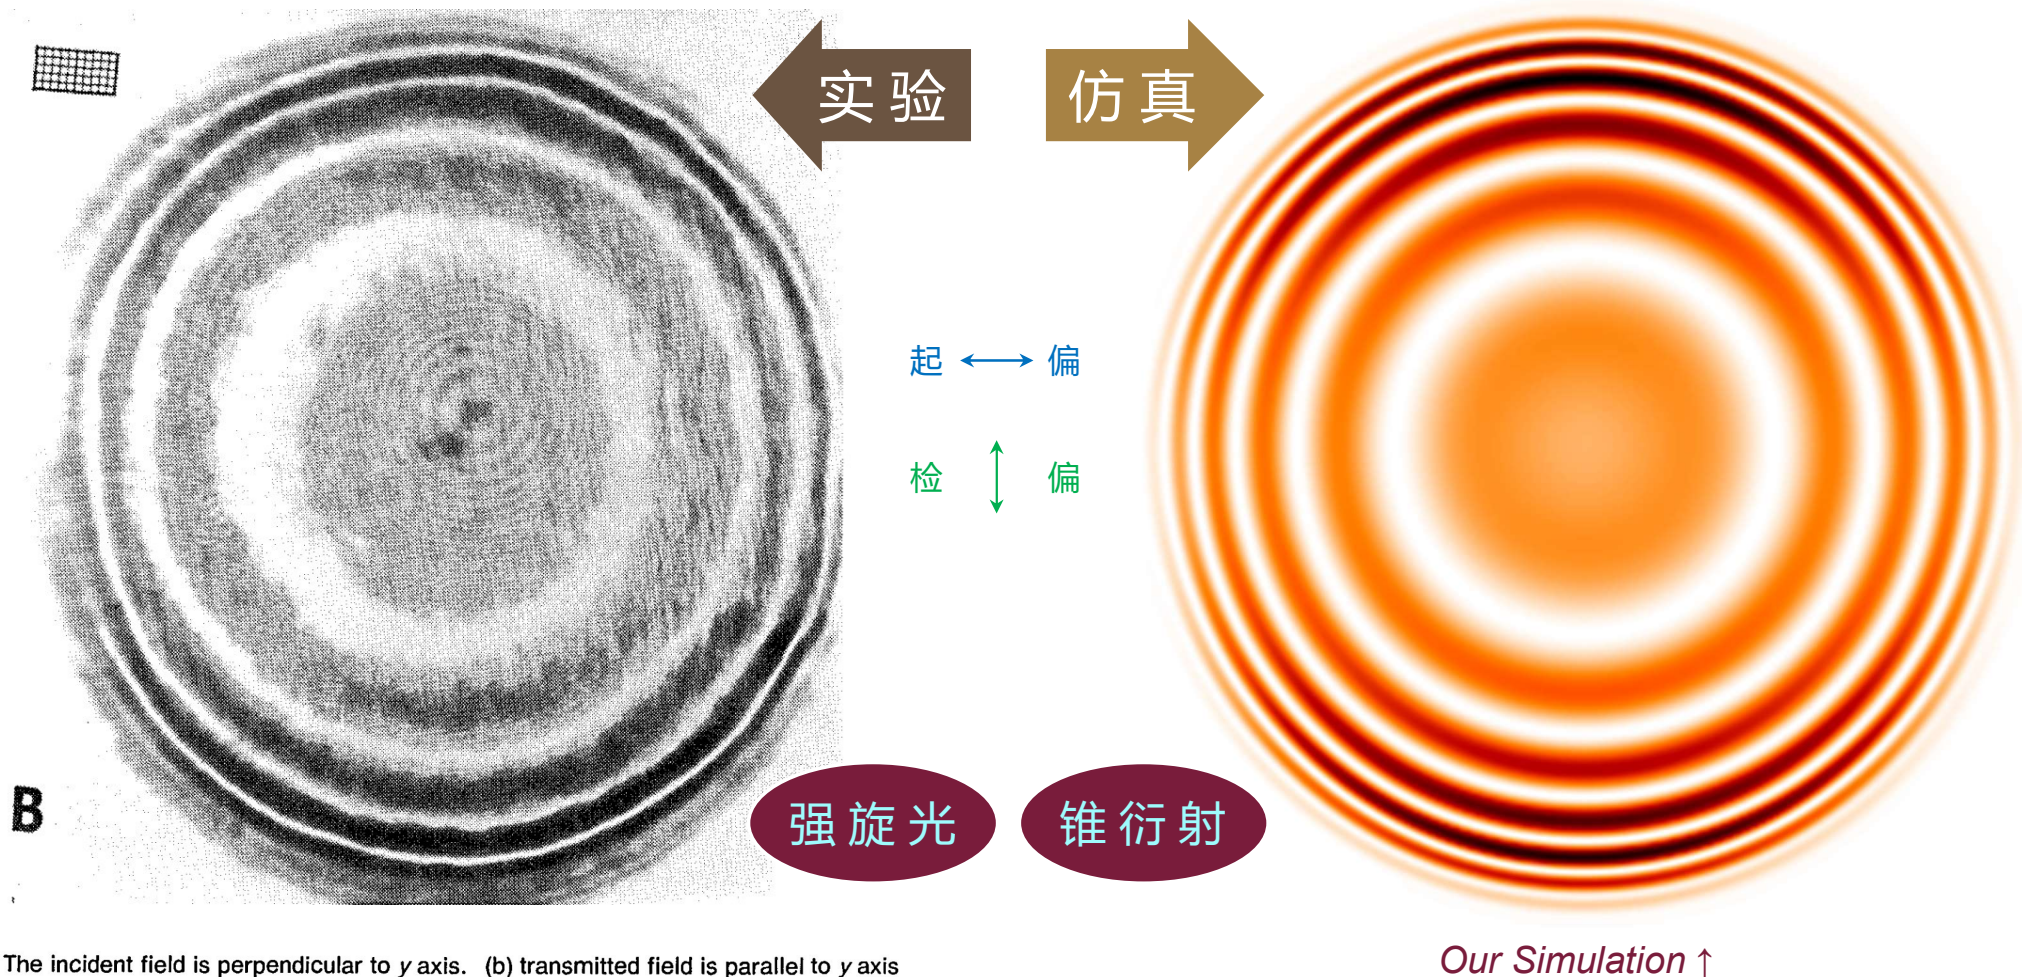

FIG. 8. The incident field is perpendicular to y axis. (b) transmitted field is parallel to y axis
